

THE ENERGY ENHANCEMENT SYSTEM brings scalar and biophoton technology to the public for the very first time. The scalar component neutralizes negative effects of our environment. Biophotons energize the body at a cellular level. Together, they allow the body to boost cell regeneration, improve circulation, fortify immune function, and reduce inflammation.

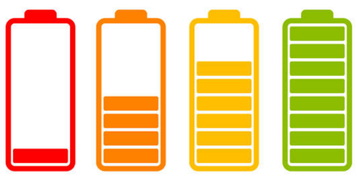

This system is not a medical device. It does not heal you. It does restore balance and power to your body so it can heal itself.

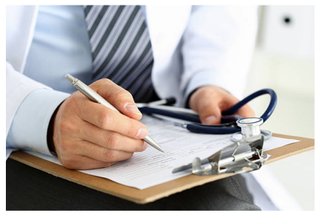

Every single cell in your body needs a certain charge. Visualize healthy cells as plump grapes. They have about 70 to 90 millivolts of charge. Due to the environment, our cellular charge diminishes. The plump grapes start to shrivel like raisins. Once that charge decreases below a certain level, there can be issues.

Energy enhancement brings our cells back to an optimal charge. This includes increasing cell membrane potential, mitochondrial and stem cell activity. Benefits include pain relief, body detoxification, and elevated moods. Right and left brain balance enables deep meditation and sleep states.

People say that sessions are peaceful and restorative. Some experience amazing naps, releasing stress, tension and anxiety. When you emerge, you might feel lighter, think more clearly and have more energy.

CLINICAL STUDY

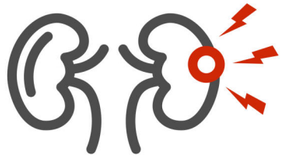

Dr. Victor Marcial-Vega, trained at Johns Hopkins School of Medicine. He has done research at the National Institutes of Health (NIH) and the National Cancer Institute (NCI). He conducted an early clinical evaluation of the system entitled "Scalar Field Technology" documented a number of improved health conditions including:

DIABETES - a drop of blood sugar levels after one session in the chamber.

VISION - I noticed that the healing chamber would improve vision. A doctor friend had bilateral retinal detachments and was blind. There was no pupillary reflex, which meant that no light was reaching the optic nerve. Immediately after two hours of treatment, he could see light. After a few more sessions he could see shapes. Three months later he saw my face for the first time. Today he is driving a car.

KIDNEY STONES - People who went in with kidney stones passed the stones painlessly right after being in the chamber.

CHRONIC PERMANENT INJURIES & DISORDERS - People with chronic permanent injuries, nerve damage, muscle damage, bone damage, cartilage damage were able to start moving normally. Three patients expelled stitches from old scars from surgeries 20 to 40 years ago.

PAIN CONTROL - The more chronic the pain, the better the chance of improvement. Patients were able to control their pain right after the treatment. Pain control has a 100% result so far. It is useful for pain control of all kinds including pain that requires narcotic medication.

PARKINSON'S AND TREMORS - One of my patients with Parkinson's went into the chamber and has stopped shaking.

STROKES - I've seen people with strokes being healed in one session.

ANXIETY AND DEPRESSION - We have 100% results for people who suffer from anxiety and depression.

ARTHRITIS - My patients have told me that their arthritis has been relieved very quickly in the chamber.

CANCER - Cancer patients have not experienced healing but half reported a temporary or complete absence of pain for a few days.

"It is my opinion that this is a powerful energy enhancer. It promotes a very deep state of ultimate relaxation from which all types of healing can occur." - Dr. Marcial-Vega

IN SUMMARY, reinvigorate your body while rejuvenating your senses by using the world's most scientifically and clinically verified True Bio-Scalar Technology. Recharge your core energy base in minutes. Reverse aging and reduce stress on the first visit. Rid your body of inflammation and nagging ailments.

Everyone, including animals, can benefit from this incredible technology. Experience first hand what an energy enhancement session can do for you.
